Education

BS Software Engineering
2018 - 2022
Internation Islamic University, Islamabad

Skills

- Node.js/Django
- React/Vue/Angular
- Next.js
- Docker
- Nginx
- Python/JavaScript/C++
- DevOps

Experience

Independent Developer   *Jan 2024 – Now*
Self-emplyed

- Built full-stack applications with Node.js, Express.js, MongoDB, and React.
- Used Docker for containerized development and deployment.
- Managed version control and CI/CD workflows with Git.
- Developed e-commerce, inventory, and service-based platforms.
- Specialized in scalable, API-driven systems with seamless front-end integration.

Full-stack Developer   *Oct 2022 – Dec 2023*
ACTED Afghanistan

- Developed and maintained the CRL Project MIS system for Maydan Wardak, Afghanistan, using Node.js, Express, and EJS.
- Supported a World Bank initiative for vulnerable communities.
- Built EJS-based dynamic forms with a Node.js and MongoDB backend for efficient data collection by social workers.
- Enabled data-driven decision-making for project managers through simple yet effective web interfaces.

Full-stack Developer   *Dec 2021 – Jun 2022*
Novel Plus - Part Time

- Developed a mechanic booking system with MongoDB, Express.js, React, and Node.js (MERN stack).
- Designed an intuitive React front-end for seamless user booking management.
- Built a RESTful API with Express and Node.js to handle appointments and user interactions.
- Ensured smooth version control and CI/CD with Git workflows.

Noteable Projects

Powerk - powerk.codeglyn.com
A personal project providing text-based learning materials for developers, featuring basic and advanced tutorials on programming languages, frameworks, and complete projects. Built with React and Docsource.

Knowledge

- Vue - The Complete Guide by Maximilian (Course Completed)
- Django for Professionals by William S. Vincent (Book Completed)
- Django for APIs by William S. Vincent (Book Completed)
- C++ Primer Plus by Stephen Prata (Book Completed)
- Java: The Complete Reference by Herbert Schildt (Book Completed)
- Modern Full-Stack React Projects by Daniel Bugl (Book Completed)
- Learning Web Design by Jennifer Niederst Robbins (Book Completed)
